***"Education is not learning of facts rather
it is the training of the mind to think".***

- Albert Einstein

At APS, we believe that education is a revolution, a constant journey of discovery and rediscovery that should move with the moving times.

Change is a constant, a requirement and a necessity. With our endeavours directed towards focussing on evolving pedagogical practices, we hope to bring in this revolution as a wave of new learning **"NEP Based Education with 360° Holistic Development"** and fresh ideas into our community.

For long, schools have focussed on high scores in board exams and academics have remained at the core of the teaching-learning process. However, as the new policy states that the curriculum and pedagogy in schools would be experiential, interactive and integrated with artificial intelligence, sports, visual and performing arts.

Our school nurtures not only intellect but also the physical, emotional, social and spiritual aspects of the learners. We promise to make your child's experience at APS, a truly global yet local. The school seeks your trust and co-operation to achieve greatest milestones for our learners.

***"If our school is a pen, the parents are the ink;
joining together we can write the success story of
educational development of our children".***

Best Regards
Gurjeet Ajmani
Founder & Managing Director

HAPPY PARENTING

PARENT TEACHER MEETING

To review the progress made by the children, parent-teacher meetings are held as per requirement. These meetings forge a link between a pupil's school and home-life and help both parents and teachers in understanding a child's problems and in critically appreciating his performance in school. We always motivate ward's parents to attend these meetings and feel free to discuss their problems with the concerned teacher or with the management even on normal working days. "BEST PARENTING AWARD" is given every year to parents for their parenting skills & co-operation.

I dreamed I stood in a studio,
And watched two sculptors there.
The clay they used was a young child's mind,
And they fashioned it with care,
One was a teacher : the tools she used
Were books, music and art;
The other, a parent, with
A guiding hand, and a gentle, loving heart.
Day after day, the teacher toiled,
With touch that was deft and sure.
While the parents laboured by her side,
And polished and smoothed it o'er.
And when at last, their task was done,
They were proud of what they wrought.
For these things they had moulded into the child,
Could neither be sold nor bought.
And each agreed they would have failed,
If each worked alone.
For behind the teacher stood the school,
And behind the parent, the home.
